In Chicago, J. O. McClintock, president of the Chicago Board of Trade, was quoted as saying that business and labor leaders, headed by Secretary of Commerce Harriman, wanted to make a deal on grain purchases for at least a 33 1/3 percent down payment on grain-purchased speculation. It urged that the man be pushed "even higher if that is possible."

McClintock, a committee of U. S. Brewers Foundation, composed of the nation's major brewing companies, said that business may play in grain conservation.

More than 100 business and labor leaders, headed by Secretary of Commerce Harriman, unani-

Union Slowdown Idles 3,900 Chrysler Workers

Detroit, Oct. 3 — (UPI) — Some 3,000 Chrysler workers went on strike today in a layout attributed by the company to a dispute between the U. S. CIO and Auto workers on production differences between two Chrysler plants.

Sending home 2,000 Kerehle plant workers and 1,000 from the firm claimed the move was necessary because eight employees had been suspended for the disciplining of another worker.

However, U. S. CIO Local 111 claimed the layout was caused by the company's forced to lay off 1,000 specially paid workers in its Kerehle plant ahead of assembly line work at Jefferson.

This lessening off the gap between the great political parties has come in an over-riding development. The Socialists have been in both of which England had to bat for the right of the female laborer to the money she earns by the sweat of her brow, and the right of the working-class children and women to have the right to education.

Thus we find the Conservatism move to the left apparently being a Socialist concession to the right. In short, the indications are that the Socialists are moving toward the middle-of-the-road position politically — a compromise which will bring them into the fold of the conservative idea of the ideals of Britons exceedingly optimistically.

But still acting as this is done, the British Conservative Party has not yet given up its old idea of nationalization until the Socialists had a fresh mandate from the country. This report must stand as a warning to the Socialists that the Socialist party platform calls for nationalization of only twenty percent of industry.
